ORDER

This matter is before the Court on the Motions for Trial Settings. On October 2, 2006, the MDL Panel conditionally transferred these cases, and indicated in that order that these cases are to be remanded to this Court with respect to the claims against defendant Janssen. However, until such time as a final order of remand is issued, the motions for trial settings are premature.

Accordingly,

IT IS HEREBY ORDERED that the motions for trial settings in the above referenced cases are denied, without prejudice to refile upon the final order of remand.

Dated this 13th day of October, 2006.
